SUMMARY

Hello! Nice to meet you.

I'm a software developer specialized in the .NET ecosystem. I have over 3 years of experience managing .NET-based applications with relational databases for data storage.

My objective is to become a full-stack developer, expanding my skills in both front-end and back-end technologies to build more complete and user-focused solutions.

PROFESSIONAL EXPERIENCE

Gestyde S.L. - FullStack Developer

Dec 2021 - Mar 2025

- Head developer of a web application based on microservices using .NET 6 with multiple SQL Server databases. Participation in entire develop lifecycle of new features, solving issues and improving existent services applying good practises to be more maintainability.
- Performed maintenance on monolithic web applications built with .NET Framework 4.8, fixing bugs and designing solutions based on client needs.
- Integrations with external services to existent processes that needed to be improved or needed to be lawful.
